

# Muhammad Nashid K

MERN FULLSTACK DEVELOPER

## PERSONAL INFO

A MERN stack developer is a software engineer who specializes in building web applications using the MongoDB, Express.js, React, and Node.js technologies. They possess a deep understanding of JavaScript and its applications, as well as proficiency in each component of the MERN stack.

## EDUCATION

➤ **Diploma In Computer Engineering** **2021-2024**  
*Technical Board*

## OBJECTIVE

The main purpose of using the MERN stack is to develop apps using JavaScript only. This is because the four technologies that comprise the technology stack are all JS-based. Thus, if one knows JavaScript (and JSON), the backend, frontend, and database can be operated easily.
